

DIAL-A-SEPTIC TANK CLEANERS

Deliverable 02 / 03 • Business Plan of Action

Strategic Business Plan of Action & Operations Roadmap

A comprehensive commercial blueprint outlining go-to-market execution, client acquisition channels, operational SLAs, fleet deployment protocols, B2B recurring AMC packages, and a phased 30–60–90 day milestone plan.

1. Strategic Vision & Core Value Proposition

Vision: To become Hyderabad's foremost digitized, mechanized, and environmentally compliant industrial hygiene and wastewater evacuation enterprise, eliminating operational downtime for residential societies, IT parks, hospitality giants, and industrial complexes.

Core Value Proposition (The "Dial-a-Septic" Guarantee):

1. Rapid 45–Min Dispatch

Strategic fleet staging in Madhapur ensures guaranteed rapid response to high-priority emergencies across Western Hyderabad.

2. 100% Mechanized & Safe

Zero manual scavenging. Modern high-vacuum suction pumps, high-pressure jetting, and gas-monitored safety protocols.

3. Transparent Fixed Pricing

Standardized digital rate card, GST compliance, digital payment processing, and transparent volumetric billing.

2. Dual-Engine Client Acquisition Model

ENGINE A: High-Intent B2C & Emergency Inbound

Goal: Capture immediate emergency service inquiries with sub-5-minute lead response.

- **Hyperlocal SEO:** Dedicated landing pages for 20 service areas (e.g., "Septic Tank Cleaning in Kondapur", "Emergency Drainage Cleaning in Gachibowli").
- **Google Local Services & Maps:** Optimizing Google Business Profile for "near me" instant

ENGINE B: Predictable High-Margin B2B Contracts (AMC)

Goal: Secure stable recurring revenue through multi-year Annual Maintenance Contracts.

- **Residential Societies (RWAs):** Quarterly septic & drain de-silting retainers for gated communities (Nallagandla, Tellapur, Manikonda).
- **Corporate IT Campuses:** Monthly/bi-monthly STP aeration, SBR tank, and filter feed maintenance in Hitech City and Gachibowli.

clicks.

- **WhatsApp Direct Booking:** One-tap WhatsApp chat with automated location sharing and vehicle dispatch status.
- **Sticky Click-to-Call Buttons:** Immediate telephonic conversion for panicked homeowners or store managers.

- **Hospitality Chains & Cloud Kitchens:** Fortnightly grease trap and kitchen line hydro-jetting contracts across Madhapur and Jubilee Hills.
- **Construction & Infrastructure:** Weekly scheduled portable toilet cleaning and pumping for general contractors.

DIAL-A-SEPTIC TANK CLEANERS

3. 5-Stage Standard Operating Procedure (SOP)

To differentiate from unorganized contractors, Dial-a-Septic Tank Cleaners enforces a disciplined, mechanized 5-stage service workflow on every job site:

Stage 1: Booking & Automated Rapid Dispatch

Customer books via website/WhatsApp/Call. Geolocation, tank capacity, and basement level (Ground, B1, B2, B3) are captured. Nearest vacuum tanker unit dispatched with live SMS/WhatsApp notification.

Stage 2: On-Site Safety Inspection & Gas Screening

Technicians arrive in full PPE (respirators, protective suits, boots, heavy-duty gloves). Chamber lid cracked safely; 4-gas digital detector deployed to monitor toxic H₂S and combustible methane levels. Air exhaust blower deployed if required.

Stage 3: Mechanized High-Vacuum Extraction

Vacuum tanker PTO engaged. Reinforced spiral suction hoses coupled. Heavy bottom sludge agitated using high-pressure jetting water lances and thoroughly sucked into the sealed vacuum tanker without messy spills or foul air release.

Stage 4: High-Pressure Wall Wash & Bio-Enzyme Treatment

Chamber walls, baffles, and outlet pipes hydro-washed with high-pressure water jets. Eco-friendly bacterial inoculants and deodorizing neutralizers added to curb future odor and jumpstart healthy bio-digestion.

Stage 5: Verification, Digital Invoicing & Legal Decanting

Customer inspects clean tank via flashlight/inspection camera. Chamber sealed securely. Digital invoice with GST issued via SMS/Email. Tanker navigates to authorized municipal treatment facility for compliant decanting.

Specialized B1/B2/B3 Basement SOP

For multi-tier underground parking basements where ceiling height is under 2.4 meters, Dial-a-Septic deploys auxiliary booster pumps or specialized low-profile mobile units with multi-hose couplers, eliminating vehicle height entry barriers.

DIAL-A-SEPTIC TANK CLEANERS

4. Commercial Pricing Architecture (Verified Rate Card)

All rates are fixed **Per One Trip — Loading, Cleaning & Outside Dumping Included:**

Service Category	Capacity / Vehicle	Verified Rate (INR)	Deliverables & Scope

DIAL-A-SEPTIC TANK CLEANERS

6. Phased 30-60-90 Day Execution Roadmap

Phase 1: Days 1 – 30 (Foundation & Digital Dominance)

- **Website Launch:** Deploy high-speed, modern responsive portal with interactive cost estimator and WhatsApp instant book.
- **Google Business Profile:** Optimize GMB in Madhapur with primary category "Septic System Service" & "Drainage Service".
- **Hyperlocal Landing Pages:** Index 20 target localities (Madhapur, Hitech City, Kondapur, Kokapet, etc.).
- **WhatsApp Automation:** Auto-reply with service catalogue, pricing sheet, and live GPS coordination.

Phase 2: Days 31 – 60 (B2B Outbound & Commercial AMC)

- **Corporate Pitching:** Target top 50 facility management companies (CBRE, JLL, Cushman) operating tech parks in Cyberabad.
- **F&B Partnerships:** Direct outreach to 100+ restaurant managers in Jubilee Hills and Madhapur for grease trap AMCs.
- **Monsoon Pre-Inspection Drive:** Launch preventive basement and drainage desilting campaigns before heavy rains.
- **Customer Feedback Loop:** Implement post-service 5-star Google review collection system via automated SMS.

Phase 3: Days 61 – 90 (Scale, Fleet & Retention)

- **Expanded Fleet Coverage:** Station standby tankers in Gachibowli and Tellapur for sub-30 min response times.
- **Contract Renewal Automation:** CRM alerts for scheduled 6-month septic maintenance reminders.
- **Construction Site Partnerships:** Bulk portable toilet servicing agreements with tier-1 infrastructure builders.
- **Quarterly Performance Review:** Track customer acquisition costs, average job margin, and recurring AMC ratio.

7. Key Performance Indicators (KPIs) to Track

Key Performance Indicator	Baseline (Month 1)	Target (Month 3)	Target (Month 6)
Monthly Service Callouts	60 – 80 jobs	150 – 200 jobs	350+ jobs
Recurring AMC Contracts	5 active contracts	25 active contracts	60+ active contracts
Average Response Time	60 – 75 minutes	45 minutes	30 – 40 minutes
Google Review Rating	4.5+ Stars	4.8+ Stars (150+ reviews)	4.9 Stars (400+ reviews)
Commercial Inbound Web Conversion	3.5%	7.0%	10.0%+
